

Global Green Hydrogen Science and Technology Team

International Team

Dr. Joachim Wolf

Vice-President of Linde AG. He is also the Vice-President of the European Hydrogen Society.

Denmark

Dr. Henrik Lund

Associate Professor at Aalborg University in Faculty of Planning and Development with expertise in renewable energy such as wind and bio-mass. Lead author on "Green Energy Book" for Danish Government Ministry of Environment (1999).

(<http://people.plan.aau.dk/~lund/PhD.php>)

Germany

- **Dr. Michael Pickhardt**

Associate Professor in Chemistry at the University of Wuppertal, Germany. He has written papers and published on renewable energy and its positive impact on the environment. (<http://www.uni-wuppertal.de/index-en.html>)

- **Dr. Michael Mathias**

Associate Professor at the University of Wuppertal, Germany. He is an economist who specializes in sustainable development and new alternative technologies. (<http://www.uni-wuppertal.de/index-en.html>)

Hungary

- **Dr. Szabolcs Lipi**

Associate Professor of Environmental Energy at the University of Pecs in southern Hungary. He has conducted energy and environmentally sound technology research as well as taught in Hungary and Croatia.

Iceland

- **Maria Maack**

Engineer and Director of the Iceland Hydrogen Program which is the world model for renewables (primarily hydro and geothermal) for creating hydrogen.

Italy

Konrad Bergmeister

Technical Director and Chief of Engineering for the Brenner Highway. (http://www.bbt-se.net/index.php?option=com_content&task=view&id=74&Itemid=150&lang=en)

Francesco Profumo

Dean of Engineering at the Politechnical University in Turino and most likely to be its next Rector (President or Chancellor). He is very interested in alternative and advanced technologies such as hydrogen.

(<http://www.polito.it/>)

- **Giovanni Pino**
Head of the Alternative energy group for APAT in the Italian Government. Within the last 2-3 years, APAT has become very involved in developing the Italian "Hydrogen Economy".
- **Dr. Walter Huber**
Chair of the EU Hydrogen Highway. He was trained in Technical Chemistry, later going on to become Director of the Autonomous Province of Bolzano's Agency for Environmental Protection and Work Safety. He is currently the Director of the Institute for Innovative Technologies IIT in Bolzano (Hydrogen facilities and studies).
- **Emilio Paolucci**
Associate Professor of Engineering at Politechnical University in Turino. He is also the founder and director of Pianeta srl, an alternative energy company in Settimo, Italy for the Piedmont region in Northern Italy.
(<http://www.polito.it/>)

Norway

Ivar Hexeberg

Vice President of Norsk Hydro, the largest hydroelectric power producer in Norway. The company also has 25% oil and gas production. Norsk Hydro is the major European producer of "electrolyzers" for converting electrons to hydrogen. The company have been in that business for over 50 years as it is a critical process in making fertilizer.

(<http://www.hydro.com/en/>)

- **Gard Titlestad**

Science advisor to the Norwegian Ambassador to the EU in Brussels. He has been instrumental in organizing and holding conferences for the EU "regions" on innovation, including hydrogen.

People's Republic Of China

- **Li Zing**

Professor in Denmark on Public Policy and a scientist from Shanghai.
